Management Commentary

Vimal Kejriwal
Managing Director & CEO

ee

We achieved our highest-ever Revenues, Profitability and Order Intake during the year, despite a challenging operating environment especially in Q4. The record performance was driven by robust execution in our T&D business, with its contribution to revenues increasing significantly to 68% from 59% last year. Profitability also improved considerably, with operating PBT growing by 21% and operating PAT growing by 18% YoY.

Our order book has been substantially strengthened through multiple strategic wins, taking the combined order book and L1 position beyond Rs. 40,000 crore. Despite the uncertain operating environment, our robust order book and healthy tender pipeline position us well to deliver sustained growth in the coming quarters.
