ee

We have started the year on a strong note by delivering a healthy revenue growth, substantial increase in profitability and a reduction in debt levels. Despite headwinds such as persistent manpower shortages and geopolitical uncertainties, we have continued to deliver consistent profitable revenue growth. Profitability has also seen stellar growth, with PBT and PAT both growing by over 40%.

The outlook across major businesses remains optimistic. With a strong focus on execution, a robust and diversified order book & L1 of over Rs. 40,000 crore and a substantial tender pipeline, we are well positioned to deliver sustained profitable growth in the coming quarters.
